

August 8, 2017

Dear Members and Guests,

The Caribbean Palm Village Resort will be undergoing many significant changes in the coming months. The contractors currently running the restaurant will be moving their attention to another location. We have an agreement with another party, one with extensive background in the culinary field. Since it will be a complete make over, the process will take until the beginning of November to be fully operational.

We have begun construction of a new pool in phase 1. As many of you may know, this pool is thirty years old and was in desperate if not dangerous state of disrepair. As such, the Board took an extraordinary position to go forward with a new and more aesthetically and functional design. It will have a pool bar, beach entry and much more. It will contain a functioning entertainment area and sound system.

To accomplish this new endeavor, the construction company will be utilizing the tennis/basketball for storage and equipment area. If anyone has an interest in tennis, please contact the front desk for alternative usage.

We thank you for your continuous understanding and cooperation, and sincerely wish you an enjoyable stay with us.

Respectfully,

Edward J. Hayes
President of the Board
Caribbean Palm Village Resort
Cooperative Association
